**\*\*PLEASE MEASURE TIGHT SIZES ONLY\*\***

**How to take Measurements:**

Measure to the inside edge of the existing door frame.

- A) Measure across the top of the Door. (Left to right)
- B) Measure through the centre of the door. (Left to right)
- C) Measure across the bottom of the door. (Left to right)
- D) Measure the height of the door.
- E) Measure the door from the top left to the bottom Right.
- F) Measure the door from top right to bottom left.
- HH) Measure the height of the handle (Be sure it is clear of the already existing handle)

**\*\* No liability will be taken for doors being miss measured— If you are not sure please call 5623 5325 \*\***

I Understand that the door will be built off my measurements and if any adjustments need to be made a \$50 Fee will apply.

Signed: \_\_\_\_\_

Looking at the door from the outside mark with an X below, Which side the handle will be on.

\*Please allow 10 Days to build\*
