****PLEASE MEASURE TIGHT SIZES ONLY****

How to take Measurements:

Measure to the inside edge of the existing door frame.

- A) Measure through the centre of the door into the top and bottom track.
- B) Measure through the centre of the door. (Left to right)

HH) Measure the height of the handle (Be sure it is clear of the already existing handle)

**** No liability will be taken for doors being miss measured— If you are not sure please call 5623 5325 ****

I Understand that the door will be built off my measurements and if any adjustments need to be made a \$50 Fee will apply.

Signed: _____

Please allow 10 Days to build

Looking at the door from the outside mark with an X below, Which side the handle will be on.
